EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 1, before the first paragraph, please replace the related application paragraph with the following paragraph:

This application is a Divisional of U.S. Patent Application No. 09/388,797 filed September 2, 1999, now U.S. Patent No. 6,375,884.

2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teach or suggest an apparatus for producing a molded body to be included in a bead inductor, in which the molded body is formed in a mold cavity via injection molding when producing the bead inductor by electrically connecting external terminal electrodes to both ends of a hollow core conductor coil disposed in the molded body formed by embedding the hollow core conductor coil in rubber or resin material containing magnetic powder, the apparatus comprising: an upper mold portion having a first gate and a second gate arranged to allow the resin or the rubber material to be supplied into the mold cavity; a lower mold portion which is fitted to the upper mold portion to define the mold cavity, the lower mold portion having an accommodating hole in a portion thereof located a position substantially

corresponding to an approximate center portion of the mold cavity; a first spacer pin portion movably disposed in the accommodating hole in the lower mold portion; a second spacer pin portion movably disposed in the second gate in the upper mold portion; and a closing pin movably disposed in the first gate in the upper mold portion.

The closest prior art (Reinders: 4,025,269) discloses a mold having a plurality of molding members (12, 14, 16) which form a mold cavity (60), an upper core (23), a lower core (22) and a plurality of gates (36), but the reference fails to disclose a second spacer pin portion movably disposed in the second gate in the upper mold and a closing pin movably disposed in the first gate in the upper mold portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
